

BARAKAT AL-TAQWWA
FREIGHT (W.L.L.)

**OVER 9 YEARS
OF EXPERIENCE**

in
LOGISTICS & SUPPORT SERVICES
UAE - Kuwait - Iraq - Jordan

HOW DIFFERENT FROM MOST SERVICE PROVIDERS IN THE CATEGORY?

Customs Clearance, Overland Transport, Regional Sea Freight & Airfreight at Its Best!

BT Freight Provide Logistics for O&G and Power Sectors,
Manufacturing, Retail & Industrial Distributors

- Support shipping companies and international forwarders 24/7 right from the stage of quoting project inquiry
- Available 24/7 for updates on delivery status
- Professional approach to transport and customs clearance
- Commitment to long term relations with principals

You have a good arrangement with your present forwarding company - only the latest consignment doesn't get immediate uplift. It has to go, but short of chartering a plane, you are grounded by good intentions and goodwill!

We provide top priority options, chiseled out of 9 years of networking and establishing perfect understanding with cargo departments of airlines & shipping lines & truck pools, which enables us to give you the type of service you were hoping for all along. We have the know-how, the resources and the experience, to give you prompt, efficient and reliable forwarding. And not only that, our rates are most competitive as well!

We pay enviable attention to details like co-ordination with our customs brokers, surface transport asset owners and the personnel who get your cargo to the loading areas and docks on time. We have such a wide network that we could actually go in for choices on your behalf, thereby creating an A to Z routing.

Logs are maintained of all movements of consignment so that you know your cargo is in good hands and under control.

Leading names in Oil and Gas Exploration Projects, US Military supply needs, Retail/ Fast Moving Consumer Goods, Construction, Industrial and Chemical sectors are all supported by our best in class transportation capabilities, knowledgeable and dedicated staff.

Areas of BT Freight Expertise:

Refining the Art & Science of IRAQ Logistics and Supply Chain Management

Each business and market has its own unique DNA and the supply chain its own Central Nervous System, determining the way it performs. This is how we at Barakat Al-Taqqwa Trading & Transport LLC, Iraq are taking Supply Chain Management (SCM) "out of the box", creating and designing innovative SCM solutions for your every business need.

For us SCM is all about managing and connecting the three critical flows - Physical Flow, Information Flow and the Financial Flow. With the integration of these three Flows, our corporate vision of building the Logistics Superhighway is fulfilled. Understanding the possibilities of a seamless world to connect with Iraq has given us a creative edge in the way we manage supply chain processes for target market Iraq.

Providing turnkey Supply Chain Solutions to manufacturers overseas, brand owners and traders of goods has been the recent objective of Barakat Al-Taqqwa Trading & Transport LLC Iraq and considerable progress made since conception. We handle commodities that range from food, non food, electronics, beauty care, toiletries, cosmetics, home appliances, adhesives, DG and non DG chemicals, white goods, spare and accessories amongst others.

In a resurgent country Iraq our logistics turnkey supply chain solutions are developed in a way that makes it easy, affordable and enhance your product offering - ultimately increasing your profitability with a noticeable in time delivery to the end user.

Supply Chain Management is a critical success factor for manufacturers and retailers in all industries. From raw material to retail distribution, our operations personnel work closely with clients to manage the entire supply chain, providing tailored services and fulfilling agreed performance levels (KPIs).

Distribution

- Receipts, consolidation and processing of purchase orders
- Quality control
- Storage areas of different temperatures
- Storage of special sizes and weights
- Product and item-wise segregation
- Orders pick and pack services
- Inventory management
- Secure warehousing infrastructures

Distribution

- Global freight management
- Track and trace
- Domestic receipts

BT Occupational Safety and Health Management

BT occupational safety and health approach includes assessing risks and implementing preventive measures, giving priority to removing risks at source. These principles applied to implementing a preventive plan for road safety and health that includes vehicles and their equipment, operations planning and personnel. Measures to manage risk includes part of overall business management.

BT Contribution to Environmental Issue

Green issues are at the core of every BT mainstream policies. We continue to consider how we could reduce our carbon footprints and actively help combat global warming.

BT Cargo Insurance Cover Policy

Cargo insurance against accidents and handling not factored in our standard quotations, could be provided on request. Where consignor/ consignee/fellow agent subscribe for insurance, our association terms would imply cover obtained with waiver of subrogation clause for ourselves as agent.
